SB

SB Table Light

DESCRIPTION

To be configured by luminous blade units, XcellentDesign organize a series of lighting to depicting the nature creatures. SB with a single blade obliquely inserted in the seat, such as buds blooming on the branches, a kind of ease at will. Special silk-like light guide exudes a comfortable light, the light blade can be detached, easy to package, install and replace. With four-stage touch dimming, it can be used as bedside reading, nightlight or decorative lights. Its recharging base apply to 3 pieces NiMH batteries could turn it to be a portable light.

FEATURE

- Slim and frameless, the luminaire surface appears silk-like when lit-up and returns to clear when unlit.
- Invisible LED chips, each side of the glass illuminates to create visual layers and comfortable ambience.
- The whole surface of a blade emits a controlled, uniform, smooth and low-glare comfortable light.
- Through the 4-Stage touch dimmer on the light base, you could adjust the brightness easily.
- The base with NiMH battery recharging function, the light could last for 4-13 hours for each full charge depend on the chosen brightness.
