LUDIA

LUDIA TABLE LAMP

DESCRIPTION

A delightful form of flexible soft light for reading, working, dining, and nightlight. The shade provides invisible LED light refraction through millions of tiny lenses on the light plate. Easy 360-degree rotation is permitted as well as 20-degree elevation. The lamp base includes a useful USB charger socket to charge your smartphone or other suitable devices. The series includes table lights, chandeliers, wall lamps, ceiling lamps and a variety of colors of choice.

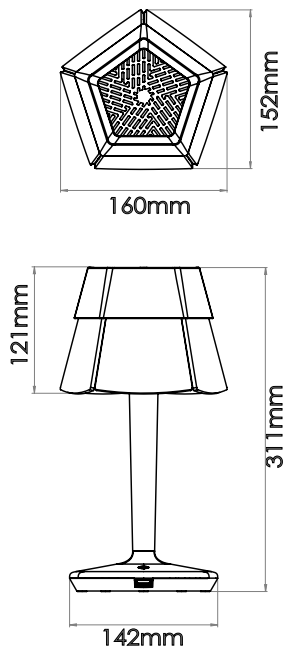

FEATURE

- Invisible LED refraction through millions tiny lenses with gentle, glare free illumination.
- Easy 350-degree rotation is permitted as well as 20-degree elevation.
- Full Range Touch Dimmer, with memory function.
- USB charging port for mobile devices.
- Unique heat sinking design to last lifespan.
- Available in many colors of matching shade head, base and column.
