LUDIA

LUDIA WALL LIGHT

DESCRIPTION

A wall light with pentagonal form deliver gentle, delightful and soft light, can be integrated into different living space. To get rid of the glare light bulb, millions of micro lens built in light shade distribute comfort, no dazzling and no shadow light. The yarn-like texture is semi-penetrated and increases the visual layering. It could be applied to the bed side, hallway and staircase. The same series of table lights, chandeliers, wall lamps, ceiling lamps.

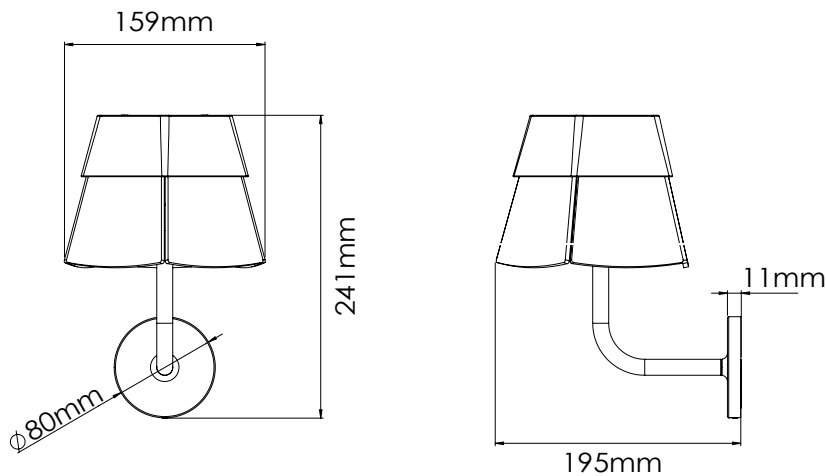

FEATURE

- Invisible LED refraction through millions tiny lenses with gentle, glare free illumination.
- Match up with Triac Dim to create different brightness. (Dimmer purchased separately)
- Light emitted from both-side of lampshade to enlarge the light range.
- Unique heat sinking design to last lifespan.
- Easy installation with the safety joint.
