STAR

Star

DESCRIPTION

To be configured by luminous blade units, XcellentDesign organize a series of lighting to depicting the nature creatures. STAR inspired by starry sky, six blades to spread out of a star with radiance around. Each blade unit can be individually plugged, easy to package, install and replace. Star has two standard configurations, one-layer with 6 blades and two-layer with 12 blades, suitable to combine several lights to create a scene in your space.

FEATURE

- Slim and frameless, the luminaire surface appears silk-like when lit-up and returns to clear when unlit.
- The LED light source is hidden inside of fixture and guide out by millions micro-lens on the surface of blade which emit a controlled, uniform, smooth and low-glare comfortable light.
- Each blade unit can be individually plugged, easy to package, install and replace.
