**FLYING FISH**

# FLYING FISH PENDANT

## **DESCRIPTION**

The FLYING FISH LED ceiling lamp is inspired from the story of Zhuang-Zi\*, one of the most revered ancient mythical Chinese texts recognizing a holistic way to live. XcellentDesign likewise hold such philosophy in their products - aesthetic function in harmony with efficient manufacture and use. The wings are lit by tens-of-millions of micro-lenses, spanning an impressive 60cm. The design uniquely unites tradition with modern materials, and provides new inspiration for LED lighting. The shining wings can be freely adjusted and the bright area altered. Sliding the bob weight under the body allows the angle of 'flight' to be adjusted upwards or down.

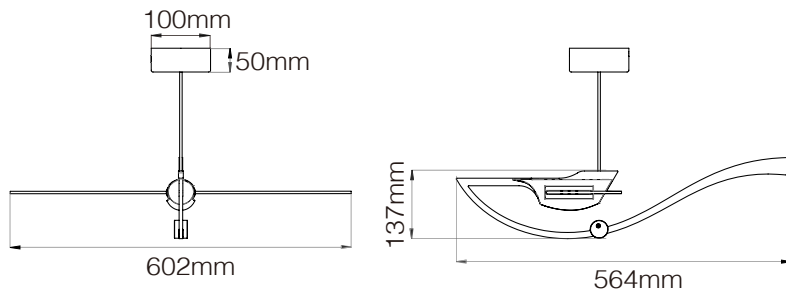

## **FEATURE**

- The broad wings span 60cm and radiate a uniform low glare, comfortable light.
- Diverse angles of 'flight' are easily set by adjusting the wings and the bob weight under the body.
- Full range dimming (with suitable control).
- Ships flat-packed with easy self-assembly.
- Excellent heat sinking integrated by design for LED longevity and safety.
- LED optimized for low light decay.
- Meets IEC/EN 62471
