IMAGE WALL LIGHT

DESCRIPTION

Many of extremes are distributing in our life, keen consciousness and relaxed mind roaming alternately in the time of day. Many of extremes are also existing in our space, sharp lines and imaginative atmosphere intertwined wherever we go. No matter in space or time, we are looking for a balance in mind and body. Between light and darkness, sobriety and dream, reality and imaginary, the **IMAGE**, combined precise geometric cutting and soft light, to create infinite magical fantasy, to create limitless imagination, and create richness and balance in our life.

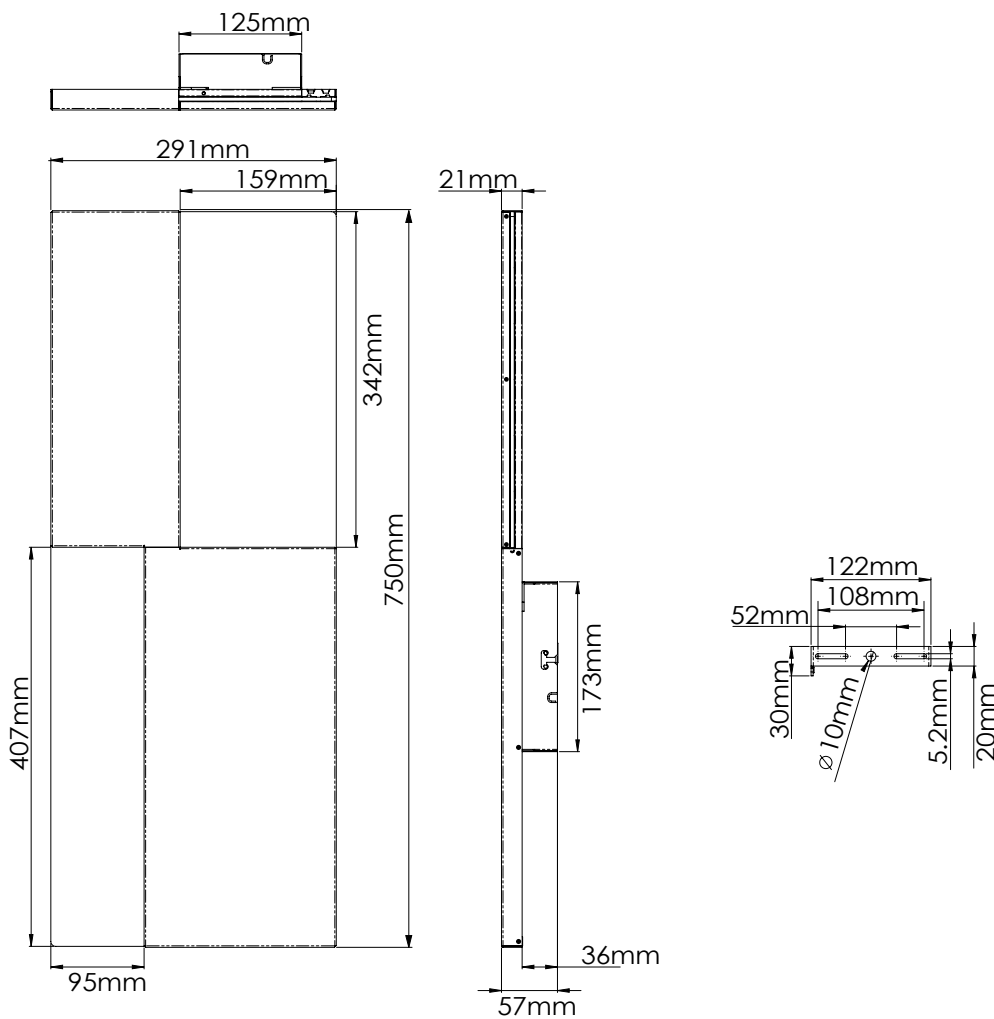

FEATURE

- Thin wall-mounted design: The slim lighting fixture is suit for corridor, staircase or entrance, become eye-caught wall decoration and upgrade the atmosphere of your room.
- The touch dimming located on the lower edge of the lamp allows the indoor light to be adjusted freely along daylight and atmosphere.
- Various optical designs, part of the light is continuously refracted through millions of Microlens emitting soft indirect light without glare, and another part of light is reflected through the wall, presenting a comprehensive and multi-level spatial light effect.
- Power and driver hidden inside of light engine, easier for installation.

SPECIFICATION

Product	Image Wall Light
Model No.	XL07-10W
Light Source	LED
Power Consumption	26.5 Watt
Luminous Flux	1540 Lm
Voltage	100~240V 50/60Hz
Color Temperature	2700K
Color Rendition	>=80CRI
Lifespan	50,000+ hrs
Dimming	Full range touch dimming included
Net Weight	3.9kg
